

29 April 1977

NOTE FOR: DDCI

Hank -

DDI's response to your request for a survey of OWI and OSR activities along with the attached comments from your Staff reflect:

a. We are fortunate that we have a DDCI who had the authority and the guts to put OWI and OSI in the DDI. An action long over due.

b. Now that you have done it, let us give the DDI a little more time to see whether there are any additional changes that are necessary. The example cited in the last paragraph of the Task Force memorandum seems to indicate that the appropriate divisions are coming together to set priorities and define analytical responsibilities in an appropriate manner.

A/DDCI
